Campaign Spending: [List of Filers](#)

Aloha! As an eight-year resident of Kapolei, I am passionate about fulfilling the vision of West Oahu as a safe place where we can live, work, and raise our families.

I believe I bring the experience, commitment and skills necessary to be an effective representative for our community. As an attorney specializing in real estate and construction litigation, I am able to address our community's concerns about development on the Leeward coast. As a former aide to Lt. Governor Mazie Hirono, I know how the legislative process works. My years of community service with the Boys and Girls Club of Hawaii, Hawaii Blood Bank, Aloha United Way, and the Hawaii Korean Chamber of Commerce, have made me sensitive to the issues facing Hawaii's keiki, charitable organizations, and small-businesses. Specifically, I am committed to:

Smart Growth: I pledge to work with government, the community, and private industry, to ensure that the necessary infrastructure is in place before further development continues such as alternate roads being constructed to alleviate the traffic on Farrington Highway.

Quality Education: I will focus upon qualified teaching professionals and adequately funded schools to improve student achievement.

Reducing Crime: I will support increased funding for public safety and for social and economic programs for our youth.

Integrity: Government can only truly represent the people when elected officials conduct themselves with integrity and the highest standard of ethics.

I humbly ask for your support.
